

MATCH THE MESSAGE TO THE MITZVAH/MINHAG

There are some really important messages that פורים wants to teach us. There are also a bunch of מצוות (commandments) and מנהגים (customs) that we do to express those messages. We did the easy part for you by connecting the message to the mitzvah or meaning. Your job is to write what you think the connection between the two is inside of the strip. We did one for you as an example.

We are only truly successful when we help others

Even though פורים is all about our success over Haman, we still make sure to give to others. That's how we really win.

Victory is best celebrated by sharing with others

We can transform what is bad into something good

There is more that is hidden than what is seen

Telling stories from our past teaches us how to behave today
